

Legal status for food safety of packaging materials (Declaration of Conformity)

As set forth in our Terms and Conditions of Purchasing, our suppliers are required to supply us solely with products and/or materials which are in conformity with German and European legal statutes. This requirement naturally applies to packaging materials as well.

In view of this requirement, we hereby confirm that the supplied products, including the packaging, are in conformity with German and European food law provisions. With respect to packaging, special attention must be given to Regulation (EC) 1935/2004 on materials and articles intended to come into contact with food.

When handled and stored in accordance with specifications, the overall migration and the specific migrations are below the legal limits set forth in Regulation (EC) 10/2011 (including all amendments and in the version that is valid at the date of issue of this statement) on plastic materials and articles intended to come into contact with food.

We confirm compliance with Regulation (EC) 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food (GMP).

The traceability of all primary packaging materials is assured in compliance with Regulation (EC) 1935/2004.

The issue of declarations of conformity pursuant to Regulation (EC) 10/2011 is required only for packaging material and can consequently be confirmed only by the manufacturer of the food packaging. The products supplied to you are packaged foods. We are not aware of any obligation to prepare or forward declarations of conformity for packaging which already contains food.

This declaration of conformity is based on information from our own suppliers, the latest scientific findings, the manufacturing process used and the currently applicable legal statutes.

We are fully aware of our responsibility to supply high quality food.

This declaration is valid until changes occur within the legal framework.

This document was issued electronically and is valid without signature.
